**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see amendment, filed 12/30/05, with respect to the rejection of claims 13-15 under 35 USC 102(e) with respect to Examiner's interpretation of Applicant's claimed "vehicle navigation system" have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration and based Applicant's amendment, a new ground of rejection is made in view of 35 USC 112.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 13- 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. The amendment adds "operable to measure a first time delay associated with a first complementary data stream delivered to a first device and a second time delay associated with a second complementary data stream

Art Unit: 2617

delivered to a second device, and synchronize the first data complementary data stream and the second data stream by causing at least one of the first complementary data stream and the second complimentary data stream to be delayed by at least a time equal to a difference between the first time delay and the second time delay." However, in Applicant's specification, see page 5, lines 8-12. it is described "[T]hen, one half of the difference in the respective delay times is the relative delay that would be introduced into the transmissions of the data streams to the first and second device. The relative delay can be compensated by delaying the data stream corresponding to the shorter delay time by the relative delay amount." Hence, claims 13-15 have not been examined on the merits.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bernardo et al. US 2005/0207672, discloses a system and method for creating, storing and utilizing composite images of a geographic location.
